

## ART FOR KIDS | Visualise a conversation

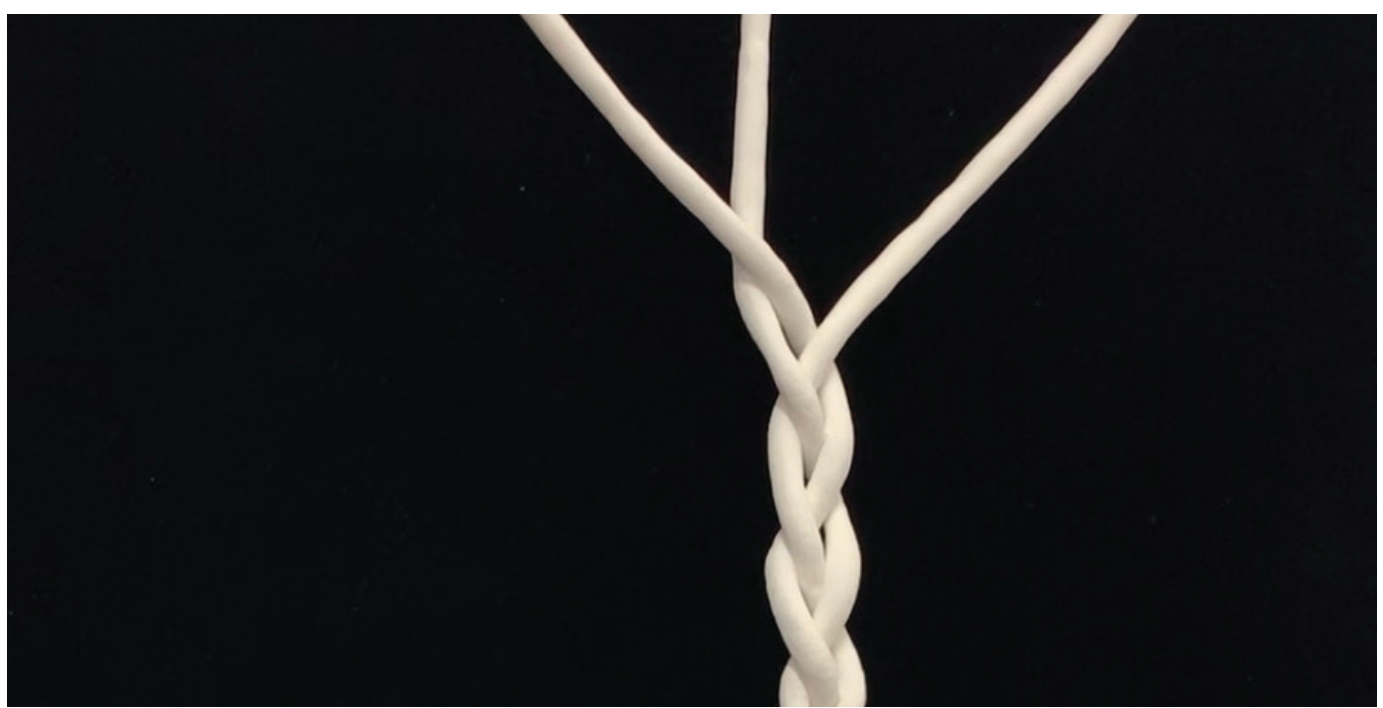

Image: Tai Snaith, Reference Plait, magiclay on stretched velvet, 2018

SHE artist Tai Snaith made her artworks based on conversations she had with other artists. For example, the plait is based on a conversation about the different responsibilities in your life and how you weave them together.

Think back to a conversation you had today with someone.

**Draw a picture, make something out of play-doh, clay, slime, kinetic sand or whatever you have at home, that is inspired by your conversation.**
