

CONSTRUCTION UPDATE

SPRINGVALE BOULEVARD PROJECT
NOVEMBER 2021

The Springvale Boulevard Project will see a full upgrade of the road and footpaths located on Springvale Road between Balmoral Avenue and Windsor Avenue.

What we've done so far

Since our last update we have:

- completed centre median works
- continued site investigations to better understand the ground conditions before we start major construction
- installed temporary pedestrian lights
- installed temporary pedestrian crossing.

Changed traffic conditions

During the next stage of works there will be changes to traffic conditions, however there will always be two lanes going in each direction. Please be aware and look out for signage and traffic controllers.

Working hours

Most of our works will take place between 7am and 5.30pm Monday to Friday. Night works will be undertaken between 6pm and 6am Sunday to Thursday.

When night works are required, we will provide advanced notice, so you can plan and prepare.

Drainage works

In the upcoming month we will start on our drainage works, which are expected to take up to six months.

Drainage works are a critical stage in the project as we will be upgrading the drainage system along Springvale Road.

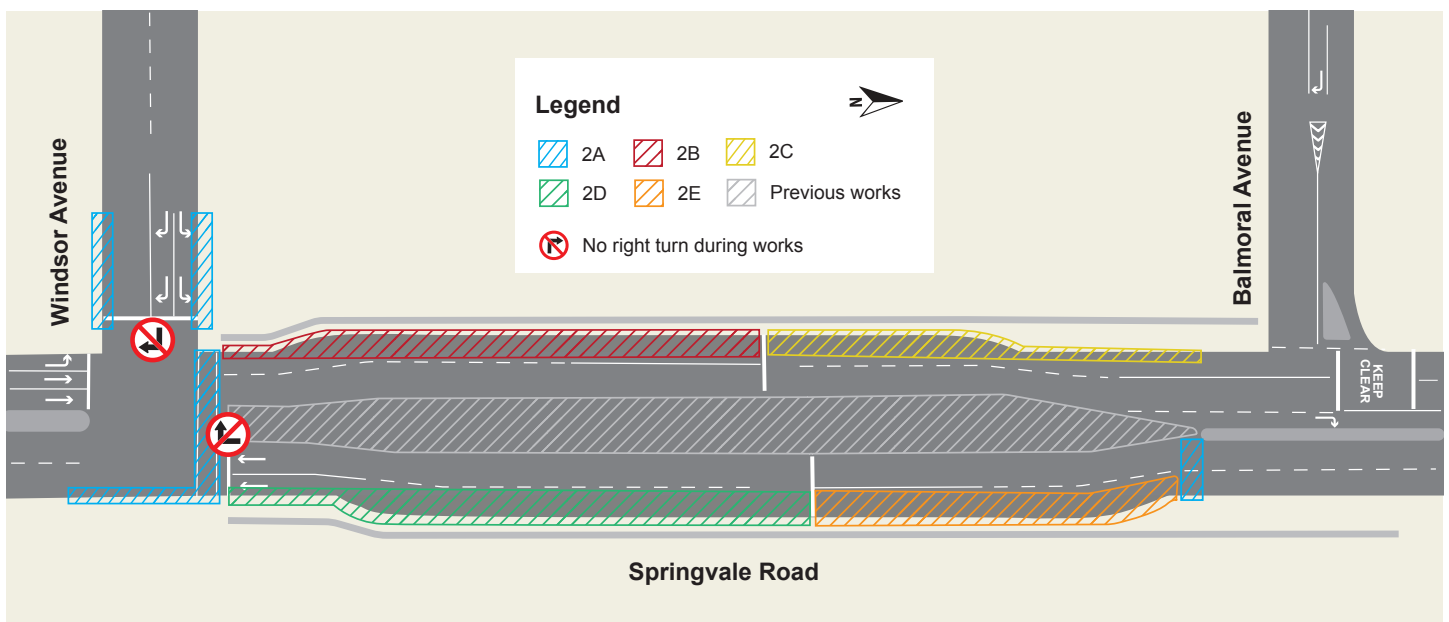

These works will be completed in five stages:

- Stage 2A – Windsor Avenue intersection
- Stage 2B – Windsor Avenue to the pedestrian crossing (west side of Springvale Road)
- Stage 2C – the pedestrian crossing to Balmoral Avenue (west side of Springvale Road)
- Stage 2D – Windsor Avenue to the pedestrian crossing (east side of Springvale Road)
- Stage 2E – the pedestrian crossing to Balmoral Avenue (east side of Springvale Road).

Each of the Stage 2 works can take up to six weeks to complete and will follow a similar process to the below:

1. Setting up temporary traffic management and install temporary line marking
2. Saw cutting and excavation to remove the kerb, pavement, footpath and street furniture. For this activity, there will be increased noise, vibration and dust
3. Installing and completing new pit and piping
4. Installing new public lighting and light poles
5. Installing new permanent traffic signals.

The map below shows these works.

Keeping you informed

We will continue to distribute regular construction updates to impacted traders, business owners and residents in the area to keep you up to date as construction progresses.

Contact us

For construction related enquiries, please contact the MACA team on **1300 348 040** or **(03) 8373 4040**.

For any general enquiries about the project, please contact the City of Greater Dandenong on **(03) 8571 1000** or email **SpringvaleBoulevard@cgd.vic.gov.au** for more information.
